

## Shed, Pavey Barn Area

Herrick Archives Number H 952

This building is a small shed that once stood at the east end of Building 173. See sketch.

For identification of other buildings shown, see Appendix A.

The reason for recording this building is that it appears erroneously in some maps as part of Building 163, making the latter an L-shaped building.

No great effort has been made to trace the history of Building H 952. It appears on a 1947 drawing setting the location of Building 163 and in photograph X 7934 in Photoarchives, which is dated 1963, and X 7864 dated 1967.
